QUALITY POLICY

We provide an aircraft components search platform tool, as well as the sale, rental, distribution, and logistics of spare parts, engine stands and tools, lubricants, and related products to airlines, engine maintenance workshops, leasing companies, brokers, and other customers worldwide.

We offer high-quality equipment rental for the period required by the customer, enabling efficient performance of maintenance activities. All our engine stands are inspected in accordance with the highest applicable standards and quality requirements. We strive to deliver engine stands to our customers as quickly as possible, thereby contributing to the successful execution of our customers' projects.

The aircraft components search platform tool provides customers with AI-based solutions that enable the efficient and rapid sourcing and sale of a wide range of aircraft components and spare parts.

We tailor logistics services to each customer's specific needs, both for the delivery of aircraft engine stands and for the transportation of individual aircraft components.

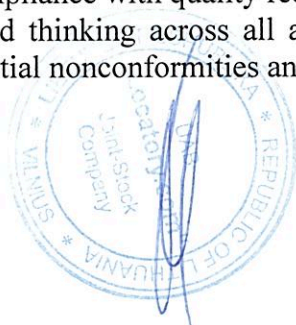

Top Management of UAB "Locatory.com":

1. Commits to ensuring the conformity of the quality management system with the requirements of the ISO 9001 standard, including applicable amendments and updates;
